March Kit Hint!!!

Although there is quite a chill in the air. The February kit will have you feeling warm and "MINTY" fresh. You may even want to have a sip of "COCA-COLA" while churning out the beautiful layouts that you will make with this kit! It will definitely take away your winter "BLUES".

Techniques from Share

Now I know my ABC's...

Alphabet stickers and rub-ons are the perfect added touch to your layout. Much quicker than a die-cut machine and with so many different ones popping up on the market all the time, there are so many to choose from.

Of course there is always the chance you run out of letters...but luckily with the fun and funky looks of pages today mixing and matching your abc stickers is trendy and adds a unique touch to your pages.

Try altering the color of your stickers by sanding and embossing on them, add some acrylic paint, distress them, add different elements of texture such as beads or mount your rub-ons on chipboard...the possibilities are endless. You can even use some of the larger jumbo alphabet stickers to use as a monogram on your page. Next time you run out of letters don't fret...mix it up!!!
